

ACCU-500

BATTERY OPERATED PIN WELDER

NEW

- Battery powered for portability
- Lightweight - only 22 lbs.
- Up to 1,000 welds per charge
- Push button control with library
- Weld and charge at the same time
- German engineering
- Designed specifically for insulation fastening

Specifications

Welding Process:	Capacitor Discharge
Welding Range:	12ga-3/16 diameter (#10)
Charging Voltage:	50-100v
Capacitance:	100,000 µf
Power Source:	Capacitor
Primary Power:	100V to 240V, 50/60HZ, 10A
Weld Rate:	20 weld pins per minute (based on dia.)
Welding Material:	Mild Steel, Stainless Steel, Aluminum
Cooling Type:	Fan
Dimensions:	14.37" x 7.72" x 9.02"
Weight:	22 lbs.

INP-06 Weld Gun

Weight:	1.1 lbs.
Feed:	Manual
Dimensions:	6.69" x 1.58" x 5.52"
Gun Lead:	21.33 feet
Ground:	15 feet
